

Having another pathway to be able to develop myself academically...

My Apprenticeship Journey

Hear from one of our incredible learners from North Lincolnshire and Goole NHS Foundation Trust who has experienced the journey firsthand.

“

Mia is a recent apprentice at the North Lincolnshire and Goole Hospital Trust, pursuing a Level 3 Business Administration apprenticeship with Learning Curve Group!

Mia was originally drawn to the apprenticeship route as it offered a perfect alternative to university as well as the advantage of flexibility which suited her full-time position, and she knew the programme would enhance her development within her role.

An opportunity to become a Team Leader then opened up at the trust and Mia, equipped with the skills and knowledge from her apprenticeship, felt confident to apply! We're delighted that Mia was successful in securing this position which prompted her to change her project idea to something more impactful and efficient!

Mia Porter

Level 3 Business Administration Apprentice

Mia embraced her new role with her apprenticeship and used the opportunities it brought to drive her own learning and enrich her knowledge. She significantly widened her project management and structure of the organisation knowledge.

Mia found that not only her knowledge and behaviours improved, but also her communication, digital, written and time-management skills! She was very grateful for the support of her tutor, Sam, who was adaptable and flexible when Mia was transitioning job roles.

Mia is such an inspiration to younger apprentices, gaining two promotions in twelve months, and is proof that this pathway can be very effective in professional development. Next, Mia aims to progress onto a Team Leader Level 4 apprenticeship, and eventually do a degree apprenticeship!
