

NCFE LEVEL 3 CERTIFICATE IN CYBER SECURITY PRACTICES

Aged 19+ at the beginning
of the academic year

Lived in the EU
for 3 years

Available
fully funded

In an increasingly digital world, cyber security is fast becoming a main concern for most organisations. With complex online scams and cybercrime, it is essential that organisations understand preventative measures to maintain cyber security, including techniques and security checks needed to store data securely. This Level 3 Certificate in Cyber Security Practices qualification is designed to provide learners with knowledge and skills relating to cyber security practices. It will provide the learner with a chance to develop knowledge and learn practical skills which can be used to seek employment or proceed into study at a higher level.

Benefits

- Achieve a nationally recognised Level 3 qualification
- Further your personal and professional development
- Learn at a time that suits you without the need to attend college

What you will learn

- Understand cyber security principles
- Threat intelligence in cyber security
- Cyber security testing, vulnerabilities and controls
- Cyber security incident response
- Understand legislation and ethical conduct within cyber security
- Professional skills and behaviours for cyber security
