

I dreamt of HGV driving, this was a great way to get my license...

My Apprenticeship Journey

Hear from one of our incredible learners from FedEx who has experienced the journey firsthand.

“

Reice is an aspiring HGV driver at FedEx UK, undertaking the LGV C+E apprenticeship with Learning Curve Group. Reice saw the opportunity as a cost-efficient way to fulfil his driving dreams! Reice is very grateful for the support that Learning Curve Group, and especially his Vocational Skills Coach, Lee has provided him during his programme.

One of the highlights of Reice's journey has been passing his Class 1 license, which he was absolutely delighted to achieve. Despite some challenges, Reice powered through with the dedication and guidance of Lee, as he tirelessly reached out and resolved issues around the clock.

Throughout his apprenticeship, Reice not only gained his license but also a comprehensive

understanding of the criteria essential for HGV drivers. Reice found the programme was very insightful, especially surrounding the whole process of handling freight, enhancing his knowledge about the industry.

Looking forward, Reice's goal is to transition from a yard shunter to a full-time HGV driver, which has the potential to be facilitated by his apprenticeship programme.

Reice recommends apprenticeships to aspiring professionals and anyone considering doing one, encouraging them to seize the opportunity for learning and growth! He is especially thankful to Learning Curve Group and his coach, Lee, for going above and beyond, ensuring a successful apprenticeship experience.
