apprenticeship  
offer...

Transport and logistics apprenticeships provide businesses and employees with invaluable opportunities to build a solid base of skills and knowledge in this dynamic sector.

Our commitment to excellence shines through our highly successful apprenticeship programmes, equipping participants with essential skills to thrive in the fast-paced and dynamic world of transport and logistics. Embrace this opportunity to join us now, embark on a rewarding journey, and build a successful career in this exciting industry.

At Learning Curve Group, we place transport and logistics at the very core of our mission. Our unwavering dedication is focused on providing top-notch solutions that are tailor-made to meet the diverse demands of the transport and logistics industry.

Our comprehensive apprenticeship programmes in transport and logistics encompass a wide array of disciplines, including inventory management, supply chain operations, transportation, and warehouse management. This empowers aspiring professionals to pursue their specific interests and develop specialised skills, ensuring they excel in their transport and logistics careers.

” At FedEx we want our employees to have every opportunity to grow in their careers and attain skills for life. We have over 70 employees currently on route to achieving their LGV driver apprenticeship and license acquisition with Learning Curve Group. We believe these programmes will have a positive impact on our site operations, support colleague retention and allow our colleagues career opportunities. We are excited to see the partnership evolve.

# Our apprenticeship offer

Our transport and logistics apprenticeships empower participants with essential skills, benefiting both businesses and employees in this fast-paced industry.

## Large Goods Vehicle (LGV) Driver C + E

Level 2

The specialised training programme teaches vital skills for load and vehicle integrity, emphasising proper load restraint and road performance. It prioritises fuel-efficient driving and compliance with traffic laws, aiming to deliver exceptional customer service. Participants graduate prepared for their roles, gaining a category C + E license as part of the apprenticeship.

## Supply Chain Warehouse Operative

Level 2

Our training programme prepares individuals for warehouse roles by teaching skills in receiving, inspecting, and storing goods efficiently. Participants will learn stock-moving techniques, order picking, packing, and loading for dispatch. Emphasis is placed on maintaining accurate records, documentation, and ensuring warehouse cleanliness.

## Urban Driver

Level 2

Customised for professionals in logistics and warehousing, this programme includes a category C license as part of the apprenticeship. It's designed for individuals across diverse sectors relying on road transportation for efficient goods delivery. Participants manage time-sensitive responsibilities to ensure seamless goods flow within specific regions.

## Mastering Data in Logistics

Level 3

This training programme hones in on supply chain visibility, a crucial aspect for logistics professionals. Participants become adept at harnessing data for informed decision-making and predicting disruptions. They acquire proficiency in utilising real-time tracking and sensor data, along with overcoming challenges in data collection, storage, and analysis.

## Team Leader or Supervisor

Level 3

Our comprehensive training programme is meticulously designed to cater specifically to the needs of first-line management professionals. It provides a robust framework for equipping participants effectively to navigate the multifaceted responsibilities inherent in their roles, such as overseeing operations, managing projects, and leading teams.

## Operations or Departmental Manager

Level 5

Geared towards professionals in management roles, this programme addresses a range of responsibilities across organisations of different sizes and sectors. Participants typically hold managerial positions, overseeing teams and projects to achieve operational and departmental objectives while effectively supporting and implementing strategic initiatives.

## Specialised programmes

We've created specialised add-on programmes to our existing apprenticeship offerings, responding to employer feedback. These programmes cover mental wellbeing and climate change awareness, addressing topics like stress and sustainability. They're tailored to enhance the overall apprenticeship experience, promoting both personal and environmental responsibility. Speak to one of our apprenticeship specialists who will guide you through adding this to your apprenticeship journey.

## Apprenticeships for employers

At Learning Curve Group, we specialise in delivering successful apprenticeships. Whether you want to upskill your employees or bring in enthusiastic new starters, an apprenticeship can be the right option for your business's future.

### What do Apprenticeships include?

Each apprenticeship programme is structured around a specific 'Standard' corresponding to a particular occupation. These standards are robust, demanding, and typically involve at least one year of intensive training, culminating in an End-Point Assessment (EPA) to evaluate the apprentice's competency.

Furthermore, many of our logistics apprenticeships come with additional benefits. These may include relevant licenses or professional qualifications integrated seamlessly into the programme curriculum, all provided at no extra cost to the apprentice.

### Benefits to Apprenticeships

Apprenticeships offer mutual benefits for businesses and individuals. For businesses, they provide a cost-effective means to attract and retain talent, customise training, and develop a skilled workforce. Meanwhile, individuals gain hands-on experience, recognised qualifications, and opportunities for personal and professional growth.
