

# Getting the driver training so quickly and passing first time...

Hear from one of our incredible learners from Urbaser Ltd who has experienced the journey firsthand.

*My* Apprenticeship Journey

“

Daniel's journey with Learning Curve Group's LGV C+E apprenticeship at Urbaser Ltd has been excellent, marked by success and career progression. The apprenticeship, initially an opportunity to receive an HGV license offered by his workplace, proved to be a very smooth and beneficial process for Daniel.

Highlights of Daniel's apprenticeship include his swift acquisition of river training and passing his test on the first attempt. Learning Curve Group and Urbaser were able to accommodate barriers such as not having a personal computer by providing laptops during the course.

Key skills and behaviours developed during the apprenticeship include improved communication,

enhanced grammar in emails and form-filling, and entering data in his portfolio. Daniel now feels equipped for his evolving role through the programme's emphasis on HGV knowledge through revision and tests.

Daniel's apprenticeship has been pivotal in his career progression, propelling him from a manual worker to a future HGV driver, aligning with his career goals. He highly recommends apprenticeships to others, advising anyone who wishes to undertake one to seize the opportunity, pay attention, and give their best effort.

Grateful for a smooth process, Daniel also commends his LCG coach, Gary, for being exceptionally helpful and responsive to his needs!
