NCFE LEVEL 3 CERTIFICATE
CODING PRACTICES

The IT and web development sector is growing rapidly, as almost all businesses now have some form of online presence. Coding is used to build websites, mobile apps and other computer software, so having an understanding of coding, how it is implemented, and the importance of software testing is crucial for anyone working in an IT or digital role. This qualification is designed for learners who want to increase their knowledge, skills and understanding of coding.

Course Content

- Coding requirements and planning
- Understanding coding design
- Implementation of coding
- Software testing
- Understand deployment, maintenance and configuration management

Eligibility

This course is fully funded if you meet **any** of the below criteria:

- You do not hold a Level 3 qualification
- You earn below £18,525 per year

Funding is also available via an Advanced Learner Loan
