

Learning more rules exist in LGV driving than I first thought...

My Apprenticeship Journey

Hear from one of our incredible learners from FedEx who has experienced the journey firsthand.

“

Michael's dream to become an HGV driver led him to Learning Curve Group's LGV C+E apprenticeship at FedEx! Michael's apprenticeship took a positive turn once Learning Curve Group became his dedicated training provider, offering him a personal Vocational Skills Coach.

Michael was delighted to have successfully completed his practical test, overcoming barriers and in spite of challenging weather conditions!

Throughout the programme, Michael developed crucial skills, learning about the intricacies of LGV driving, including rules, working time regulations, and breaks. The apprenticeship expanded his knowledge of diverse driving areas, from standard driving to ADR license driving,

emphasising the importance of route planning for larger vehicles.

As a result of his apprenticeship, Michael successfully transferred to the transport department, transitioning from the warehouse to becoming a full-time Class 1 driver. He highly recommends apprenticeships, advising newcomers to absorb the wealth of information. In the future, Michael aims to use his skills, and also gain more experience with the possibility of international driving.

Michael found his coach, also called Michael, to make his apprenticeship highly enjoyable and found the programme to enhance his role at FedEx alongside his personal and professional progression.

Michael Carney

Level 2 Large Goods Vehicle (LGV) Driver C + E Apprentice
