

Exploring new data tools and analytical techniques in depth...

My **Apprenticeship
Journey**

Hear from one of our incredible learners from RNIB who has experienced the journey firsthand.

“

Paige recently completed her Level 3 Data Technician apprenticeship with Learning Curve Group, furthering her professional development and expertise in data management. Over the 15-month programme, she gained valuable skills in data handling, analysis, and reporting, significantly enhancing her contributions in the workplace.

The apprenticeship included a combination of structured teaching sessions and one-to-one skills development meetings, allowing Paige to explore various analytical tools and techniques. A key highlight was learning Power Query, which has become a central part of her workflow, helping her streamline tasks and improve efficiency.

The programme's structured approach enabled Paige to quickly apply new knowledge in her role,

leading to immediate improvements in her daily work and enhancing her overall performance. Her commitment to her development was reflected in her achievement of a Distinction, a recognition of her hard work, dedication, and the quality of training provided throughout the programme.

Completing the apprenticeship has strengthened Paige's technical abilities and deepened her passion for working with data. She has already seen the positive impact of her newfound skills, which have enhanced her productivity, and is excited to continue her growth in this dynamic and evolving field. Paige's success is a testament to the value of apprenticeships in supporting both personal development and professional growth, proving how effective these programmes are for individuals and employers alike.
